# Non-functional requirements

1. The system will send an automated message to a user (host/refugee) if the user has not been active in the past three months..
2. The website will have different possible languages available.
3. The hosts' housing address details are private in order to avoid catfishes finding his personal information.
4. Refugees will have personal information(phone number, email, ID copy/passport/driving license, residence permit ) private to only the people that are owners of the housing I apply to.
